

New, great rates on home phone features!

Phone features like call answer, call display and call waiting have become as much a part of telephone culture as saying "hello". Newer features like e-forwarding make keeping in touch in our complex world simpler and more convenient. Now Nexicom can offer you these features and more at a substantially discounted rate.

The offer is simple. On the back side of this sheet is a list of phone features and their descriptions. Look over the list, then:

- Choose any four features and pay only **\$12.95/month**.
- Choose any six features and pay only **\$17.95/month**.
- Add any feature over six for only **\$2.95/month** per feature.

Melinda, Tracy or Michelle, our phone feature specialists, can answer your questions about using the features and get you signed up today.

Get your phone on the cutting edge of telephone culture. Connected. Naturally.

These great features will help you manage the calls you want... and those you don't!

Call Display – when the phone is ringing, displays the name and number of the incoming caller.

Call Screen – allows you to avoid unwanted calls by redirecting calls from up to 12 phone numbers to a message saying that you are not available.

Call Return – ends the frustration of re-dialing a busy number. A special ring lets you know when the line is free. Pick up the phone to connect.

Call Waiting – alerts you to incoming calls while you are on the phone. Lets you answer a second call and go back and forth between the two if you want.

Visual Call Waiting - combines the benefits of Call Waiting and Call Display. VCW lets you know, by means of a beep and display when a call is coming in, even if you are already on the telephone.*

*Call display and call waiting features are necessary with this feature.

Ident-a-ring – also called Distinctive Ring or Teen Ring. Allows you to have a second telephone number with its own special ring ...all on your existing phone line.

Voice Mail – automatically answers your phone if you are unavailable or already on the line. You can retrieve messages from any touch-tone phone in the world .

Three-Way Calling – allows you to have a conference call with two other parties local or long distance.

Call Forward – allows you to redirect all incoming calls to an alternate telephone number.

Speed Calling – lets you assign a one-digit code to up to eight different numbers for quick dialing.

Intercom – use your telephone as an intercom, allowing you to easily locate someone within your home or on your property. Ideal for workshops, barns or outbuildings.

E-forward for Voice Mail – allows you to send your Voice Mail messages to your email address where you can play it, save it or refer to it later.

[Offer is only available on residential phone lines.]
